Annual Index

Volume 38 (Winter 2005–Fall 2005)

A

Analyzing Spatiotemporal Change by Use of National Historical Geographical Information Systems: Population Change during and after the Great Irish Famine. I. N. Gregory and P. S. Ell. 38 (4): 149–67.

B

Breaking New Ground: From the History of Agriculture to the History of Food Systems. P. A. Coclanis. 38 (1): 5–13.

C

Coclanis, P. A. *Breaking New Ground: From the History of Agriculture to the History of Food Systems.* 38 (1): 5–13.

Counting Nineteenth-Century Maternal Deaths: The Case of Tasmania. R. Kippen. 38 (1): 14–25.

D

Database Developments. See *A Social Classification Scheme for Historical Occupational Data: Partner Selection and Industrialism in Belgium and England, 1800–1918* (Van de Putte and Miles).

The Duration of Book Credit in Colonial New England. D. T. Flynn. 38 (4): 168–77.

E

Ell, P. S. *See* I. N. Gregory.

F

Fertility in Historical Demography and a Homeostatic Method for Reconstituting Populations in Pre-Statistical Periods. H. P. H. Nusteling. 38 (3): 126–42.

Flynn, D. T. *The Duration of Book Credit in Colonial New England.* 38 (4): 168–77.

G

Galenson, D. W. *Literary Life Cycles: Measuring the Careers of Modern American Poets.* 38 (2): 45–60.

———. *One-Hit Wonders: Why Some of the Most Important Works of Modern Art Are Not by Important Artists.* 38 (3): 101–17.

———. *The Reappearing Masterpiece: Ranking American Artists and Art Works of the Late Twentieth Century.* 38 (4): 178–88.

Gregory, I. N., and P. S. Ell. *Analyzing Spatiotemporal Change by Use of National Historical Geographical Information Systems: Population Change during and after the Great Irish Famine.* 38 (4): 149–67.

I

Identifying the Most Important Artists in a Historical Context: Methods Used and Initial Results. J. O'Hagan and E. Kelly. 38 (3): 118–25.

K

Kelly, E. *See* J. O'Hagan.

Kippen, R. *Counting Nineteenth-Century Maternal Deaths: The Case of Tasmania.* 38 (1): 14–25.

L

Literacy and Occupational Mobility in Rural versus Urban Victorian England: Evidence from the Linked Marriage Register and Census Records for Birmingham and Norfolk, 1851 and 1881. D. Mitch. 38 (1): 26–38.

Literary Life Cycles: Measuring the Careers of Modern American Poets. D. W. Galenson. 38 (2): 45–60.

M

Miles, A. *See* B. Van de Putte.

Mitch, D. *Literacy and Occupational Mobility in Rural versus Urban Victorian England: Evidence from the Linked Marriage Register and Census Records for Birmingham and Norfolk, 1851 and 1881.* 38 (1): 26–38.

N

Nusteling, H. P. H. *Fertility in Historical Demography and a Homeostatic Method for Reconstituting Populations in Pre-Statistical Periods.* 38 (3): 126–42.

O

O'Hagan, J., and E. Kelly. *Identifying the Most Important Artists in a Historical Context: Methods Used and Initial Results.* 38 (3): 118–25.

One-Hit Wonders: Why Some of the Most Important Works of Modern Art Are Not by Important Artists. D. W. Galenson. 38 (3): 101–17.

P

Perfecting Data. See *Analyzing Spatiotemporal Change by Use of National Historical Geographical Information Systems: Population Change during and after the Great Irish Famine* (Gregory and Ell); *Counting Nineteenth-Century Maternal Deaths: The Case of Tasmania* (Kippen); *The Duration of Book Credit in Colonial New England* (Flynn); *Fertility in Historical Demography and a Homeostatic Method for Reconstituting Populations in Pre-Statistical Periods* (Nusteling).

R

The Reappearing Masterpiece: Ranking American Artists and Art Works of the Late Twentieth Century. D. W. Galenson. 38 (4): 178–88.

S

A Social Classification Scheme for Historical Occupational Data: Partner Selection and Industrialism in Belgium and England, 1800–1918. B. Van de Putte and A. Miles. 38 (2): 61–92.

V

Van de Putte, B., and A. Miles. *A Social Classification Scheme for Historical Occupational Data: Partner Selection and Industrialism in Belgium and England, 1800–1918.* 38 (2): 61–92.
